Subject: Microsoft Settlement

This attack on Microsoft, and the economy, has gone on too long.

Please concede that this suit should never have been brought to court and bow out gracefully.

The DOJ suit has most likely cost America and its citizens more in lost wealth and economic security than the Enron fiasco.

Times are bad enough without our own government trying to stifle job creation and wealth accumulation.

Microsoft is in a tough business and needs support rather than hindrance.

Thank You,

John and Marilyn Longthorne
